

Matt Maitland

Software developer with experience in freelance web development and C++ audio software.

contact@mmaitland.dev | Colorado, USA | github.com/mmaitland300

EXPERIENCE

Regional Manager

August 2026 - Present

BOPA Precision Agriculture, Inc.
Manage Colorado deployments and customer support, coordinate with engineering, and contribute to software development and machine learning.

Robotics Technician

Earlier experience

Barn Owl Precision
Supported robotic systems operating in dust, heat, and daily field use.

- Applied hardware, Windows, and networking experience through observation, fault isolation, and repeatable diagnostics.

Independent Software and Audio Development

2022 - Present

Self-directed
Develop web software and audio DSP tools alongside writing, recording, and producing original music.

- [Built mmaitland.dev with typed content, CI, smoke tests, contact validation, rate limiting, and optional admin workflows.](#)
- [Building StringFlux in JUCE/C++ for stable real-time audio processing.](#)
- Document design decisions, test results, and next steps in case studies and technical notes.

Technical Support / Product Support Specialist

April 2024 - 2026

Auxillium
Supported complex simulator systems remotely, often with incomplete logs and limited direct hardware access.

- [Documented recurring failures and repeatable triage steps.](#)
- Diagnosed customer-facing simulator faults remotely through isolation and testing.

SKILLS

Core Skills
Troubleshooting, Robotics systems, Systems diagnostics, Windows systems, Networking / TCP/IP, TypeScript, Next.js, React, Git / GitHub, Technical communication

Working Project Experience
Prisma, PostgreSQL, Auth.js, Tailwind CSS, Python, Zod, Resend / Upstash, C++, JUCE, DSP

Familiar / Earlier work
Flask / Django, MySQL, MongoDB, Machine Learning / CNN, Apache

EDUCATION

Bachelor's in Biochemistry

January 2014 to December 2016

University of South Florida

Associate in General Studies

January 2008 to December 2011

Florida Southwestern State College
